

UTM-IMM STUDENT CHAPTER COMMUNITY SERVICE

Prepared by: Dr. Wan Fahmin Wan Ali (Universiti Teknologi Malaysia), Muhamad Shahmi Afiq Rumli (Universiti Teknologi Malaysia), Lau Jia Ming (Universiti Teknologi Malaysia)
Edited by: Prof. Dr. Esah Hamzah, Universiti Teknologi Malaysia

Community service held on the 25 March 2017 (Saturday) at *Pertubuhan Kebajikan Anak Yatim Islam Kota Tinggi, Johor* was the first activity organised by UTM-IMM Student Chapter. The main objective of the programme was to create team working, creativity among the students and most important of all to instil an awareness and care towards less privileged children. It is a voluntary activity participated by 44 UTM-IMM Student Chapter members mainly from the undergraduate mechanical-materials engineering programme from the Faculty of Mechanical Engineering Universiti Teknologi Malaysia Johor Bahru. The students travelled by bus from Johor Bahru to Kota Tinggi bringing with them many gifts and donations such as electrical appliances (washing machine, refrigerator), clothes and others for the orphanage.

The activity began with an opening remark from Dr. Wan Fahmin Faiz Wan Ali from UTM who is an Advisor to the Student Chapter. This was followed by activities between the students and the children of the orphanage. The activities and games which were immensely enjoyed by the children include the making of paper cups, robot writer and design of garments with newspapers. Another interesting activity conducted by the students and children was planting of flowers in the orphanage compound. The programme was a success as the children of the orphanage were inspired and thoroughly motivated by the presence of so many University students.
